Subject: Prepublication copy of NAS report on 'Alternatives'
Attachments: A Framework to Guide Selection of Chemical Alternatives- PREPUBLICATIONpdf

Jim, Jack, Wendy, and David,

Please find attached the prepublication copy of the NAS report -- **A Framework to Guide Selection of Chemical Alternatives**-- which will be the subject of their briefing on October 7th at 11. Per caveats listed below from NAS staff, this report has to stay 'within EPA' until its public release on the 10th. **Jack**, I did not add OPP to the briefing invite because I was not sure you had any interest in this topic. If you/colleagues do, please let me know and I will gladly add to the invite.

***Please remember:**

- **This is an advance copy for the sponsor and may not be distributed or discussed beyond the sponsor until the public release on Friday, October 10 at 12:00 Eastern Time.**
- **This is a prepublication version/uncorrected proofs. The final printed version will be provided to you about November 10.**

Thanks,
Tina
